

2/19/19 6:30 pm

Congratulations to our MOEMS mathletes on our Contest #4 results! So far, we have scored 58 team points on Contest #1, 79 points on Contest #2 and 61 points on Contest #3 and 57 points on Contest #4 with a total of 255 points so far this season, with only one more contest to go on Tuesday, March 19, 2019 (the Tuesday after Spring Break) at 4:30-5:30.

Following our fourth contest we have one mathlete in the lead with 18 correct of 20 possible, we have two mathletes in second place with 16 correct of 20 possible and one mathlete in third place with 15 correct of 20 possible. Our range of scores is from 4 to 18 of 20 possible.

Even though no mathlete scored a Perfect 5 of 5 on Contest #4, an amazing 7 of our mathletes scored 4 of 5, 4 mathletes scored 3 of 5, 7 mathletes scored 2 of 5, and 3 scored 1 of 5. 22 of 26 participated in Contest #4.

On Contest #4 12 of 22 mathletes correctly solved problem A, 18 of 22 mathletes correctly solved problem B, 14 of 22 mathletes correctly solved problem C, 13 of 22 mathletes correctly solved problem D and 0 of 22 mathletes correctly solved problem E. As is often the case each contest is increasingly more challenging as mathletes work to solve problems. We reviewed each problem after the contest and will continue to work similar problems in class.

Thank you for traveling safely to our Contest #4. Thank you for this opportunity to work with your child in WINGS Math Olympiad and MOEMS.

Appreciatively,
Gina Wyckoff
