

The District of Choice.

YOUR GUIDE TO OUR PROGRAMS

A MESSAGE FROM

Superintendent

DR. GRENITA LATHAN

Options matter. At SPS, we offer more as the District of Choice.

It's not a tagline; it's more than a mission statement. Springfield Public Schools is proud to be The District of Choice in Missouri. We open doors to our students and their families by offering learning options that create opportunities for everyone.

Springfield Public Schools provides an innovative and expansive range of choices for both students and staff to discover their possibilities. Our commitment to student-centered education provides students with boundless opportunities, including Choice programs, and the flexibility to choose a learning path that matches their goals and interests.

At SPS, we create a space where every student feels celebrated and innovation, inspiration and imagination are cultivated. This work is strategic and foundational to SPS, and we believe in its impact. That's why we've developed a brand around our district that reinforces that our doors are open, with personalized learning experiences for students and their families to choose what is best for them.

At SPS, Choice is more than doing school differently. We are committed to the strategic work of creating new ways for students to learn and succeed. This work directly connects to our Strategic Plan, which prioritizes real-world educational opportunities for all students.

This is school choice in public education. Welcome to Springfield Public Schools. Our doors are always open.

Sincerely,

Dr. Grenita Lathan
Superintendent

Strategic Plan

Our Mission:

SPS is committed to the well-being of each student by providing high-quality academic opportunities.

Our Vision:

SPS will be the district of choice that equips each student to pursue their goals and highest potential as an engaged contributor to society.

Our Commitments

Success-Ready Students:

Preparing all students to be college and/or career ready, with an emphasis on each student reaching their full potential.

Organizational Efficiency and Excellence:

Being responsible leaders and stewards of district resources.

Collaborative Culture:

Engaging in proactive communication and collaboration with all stakeholders.

Quality Learning Environments:

Providing safe and secure facilities that optimize learning.

Make the outdoors your classroom at WOLF.

WOLF is an innovative learning opportunity for 46 fifth-graders with a special interest in nature and the outdoors.

Students explore a comprehensive curriculum through the context of environmental sciences and conservation using inquiry-based learning experiences. WOLF is a partnership with the Wonders of Wildlife Museum and Bass Pro Shops.

Classrooms are located in Bass Pro's John A. & Genny Morris Conservation Education Center.

Students should apply if they ...

Play outside, always

Like to hike or camp

Enjoy "roughing it"

Love studying nature

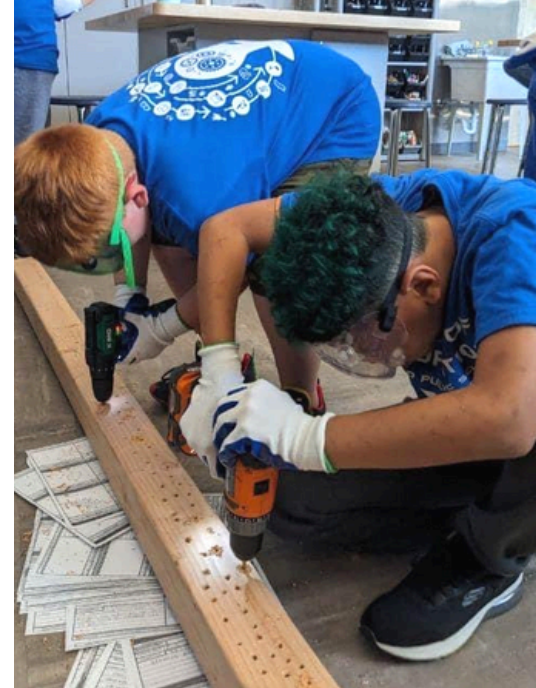

Like to help others

The District of Choice.

Don't just discover problems, invent solutions at AOE.

Academy of Exploration is an immersive STEM magnet school for 150 students in grades 4-6 at SPS.

Students focus their learning on science, technology, curriculum and math to achieve grade-level curriculum objectives. With a heavy emphasis on engineering, AOE offers a custom-designed facility where students are immersed in a learning environment that fosters skills in design thinking, building and constructing, iteration and problem-solving.

Students should apply if they ...

Like to invent

OTC Middle College

OTC Middle College is a consortium high school for Springfield and area school districts. This innovative approach to traditional secondary education is located on the Ozarks Technical Community College Springfield campus.

The program is designed for students who desire a flexible course of study to fit their specific needs. Students attend high school full-time at OTC while taking college courses. They finish their junior and senior years of high school at OTC and can explore a variety of careers and technical fields including computer science, culinary arts, graphic design and much more.

Students learn valuable academic and social skills while earning college credits to make them more employable in any field they choose.

Students should enroll if they...

Desire a different educational setting

Want a head start on college

Seek more social skill development

Want a more flexible schedule

Lessons come alive with STEAM-focused learning.

The STEAM Academy at Jarrett Middle School is a whole school Choice program for students grades 6-8.

Jarrett inspires success, innovates, and empowers all students to reach their full potential through science, technology, engineering, arts and math. This innovative STEAM-focused learning model helps students acquire the skills to pursue their passions before they even reach high school. Jarrett students are also encouraged to participate in traditional middle school activities, including athletics, extra-curriculars, clubs and more.

SPS **CHOICE**

Developing inquiring, knowledgeable and caring young people.

The International Baccalaureate Programme is a holistic framework for learning at five SPS sites, spanning K-12.

IB transforms learners into leaders. Through rigorous courses and a global lens, IB equips young people with adaptable skills to tackle society's complex challenges.

Guided by passionate IB educators, students develop the knowledge, skills and sense of purpose they need to thrive throughout their lives and help make the world a better place.

Students should apply if they aspire to be:

Inquirers

Knowledgeable

Thinkers

Communicators

Principled

Open-minded

Caring

Risk-takers

Preparing to lead, learning to serve with JROTC.

JROTC is a rigorous career preparation program offered at Hillcrest High School in conjunction with the U.S. Army.

Cadets participate in a myriad of co-curricular activities to demonstrate their attainment of lesson outcomes. Some activities include precision and exhibition military drill competitions, air rifle competitions (optional), Raider Challenge competitions, JROTC Leadership and Academic Bowl, Science, Technology, Engineering, and Mathematics Camp, and a physical fitness competition known as JROTC Cadet Leadership Challenge.

Cadets who complete four years of JROTC co-curricular activities and its challenging curriculum are better prepared to pursue their college or career goals.

Job shadowing in the workplace, test driving careers.

GO CAPS is an innovative program that provides real-world job shadowing in cooperation with major Springfield employers.

Through GO CAPS, students are fully immersed in a professional culture, solving real-world problems, using industry standard tools and are mentored by area employers, all while receiving high school credit. GO CAPS is an example of how business, community and public education can partner to produce personalized learning experiences that educate the workforce of tomorrow, especially in high-skill, high-demand jobs.

The program is open to high school juniors and seniors and includes the following pathways: Business and Entrepreneurship, Engineering and Manufacturing, and Medicine and Healthcare.

Take learning to new heights with Fly SPS.

Fly SPS is an aviation program for SPS juniors and seniors.

Fly SPS has been developed to provide aviation career opportunities to SPS students. Students will learn through classroom work, simulator use, and flight hours. Upon successful completion of Fly SPS, students will earn their private pilot license. The skills they acquire will also prepare them to pursue other high-demand careers in aviation such as commercial and airline pilots, co-pilots or flight engineers.

Fly SPS is a partnership with Ozarks Tech and Premier Flight Center.

Students should apply if they enjoy...

Aerodynamics

Plane construction

Weather theory

Navigation

Instruments and systems

Flexible online learning leads to endless possibilities.

Launch Virtual Learning gives K-12 students the flexibility to take online courses their way—whether they need to make up a class, earn credits on their schedule, or enroll as a full-time virtual student.

Beyond SPS, Launch partners with 400+ school districts statewide and offers hundreds of thousands of Missouri students both per-course and full-time options. With a catalog of 100+ courses designed in-house, including Launch Missouri's Workforce pathways, high school students graduate career-ready.

Launch is based at Springfield Public Schools, but classes can be taken anytime, anywhere!

Students should enroll if they...

Desire a more flexible schedule

Need to make up required credits

Are ready to explore new interests

Want to graduate career ready

Need a full-time virtual option
