

# ANNUAL REPORT 2004 – 2005

**“HELPING TODAY’S KIDS FILL TOMORROW’S PROMISE”**

*“Our students are the future of the Springfield community. They are responsible for their learning. Their work and achievement in the classroom is critical. We must serve their needs to be accountable and responsible for learning by having high expectations for their academic achievement. This report provides basic information needed to inform and guide us in our work with children to improve their achievement.”*

## ***Our Mission***

Springfield Public School District exists for the academic excellence of all students.

## ***Our Vision***

Springfield Public School District shall be a national leader in academic and student development. In addition to the mastery of basic skills, students shall be engaged in challenging academic programs designed to allow students to reach their highest potential.

## ***About This Report***

The Springfield Public School District is fully committed to open, two-way communication with staff, parents of our students, and all citizens who are concerned about education. Our continuing commitment to meet that goal is the reason for this, and previous, annual reports.

In this report, you will find information about many aspects of school life, from the bricks and mortar of individual school buildings to the academic achievements and programs that help every student become productive.

This annual profile of our district has been produced every year since 1986 and was expanded in 1996 to meet state public reporting requirements for all school districts in Missouri. The report includes student enrollment numbers, attendance figures, and high school dropout rates. Also included are data about the amount of state and federal aid received by our district, the number of students who qualified for free and reduced lunches, and the length of the school day and year. In addition, tax information and statistics about teaching and administrative staff, average salaries earned, and percent with advanced degrees are also provided for individual school buildings within the district.

Additional state requirements in 2002 initiated the production of individual report cards for each school building in the district. In 2004, state law transferred the responsibility of publishing report cards to the state. With the change in law, the locally produced report cards became optional for districts. Springfield Public Schools chose to continue

producing report cards, which contain much of the data published in the annual report, plus additional information. School report cards are available at each school building, at institutions such as public libraries, and are available on the Web at:
