

ANNUAL REPORT 2010 – 2011

“HELPING TODAY’S KIDS FILL TOMORROW’S PROMISE”

“Because our students are our future, they must graduate to be able to deal with the complexities of a changing world.

The Springfield community realizes that their children must not only have the basic skills but also college and career readiness to thrive in the future. The community is working with the district to develop a Springfield learning model which will focus our system on the capabilities students will need to be successful in the 21st century—relevant, rigorous curriculum that ensures a strong knowledge base, along with the ability to think critically, collaborate successfully, and communicate effectively.

Contained in the following pages of this Annual Report is essential information to keep you informed and to guide us as we strive to improve student achievement and enhance our reputation as a regional, state and national leader in providing quality education for all children.

Springfield Public Schools Annual Report 2010-2011

Our Mission

Springfield Public School District exists for the academic excellence of all students.

Our Vision

Springfield Public School District shall be a national leader in academic and student development. In addition to the mastery of basic skills, students shall be engaged in challenging academic programs designed to allow students to reach their highest potential.

About This Report

The Springfield Public School District is fully committed to open, two-way communication with staff, parents of our students, and all citizens who are concerned about education. Our continuing commitment to meet that goal is the reason for this, and previous annual reports.

In this report, you will find information about many aspects of school life, from the bricks and mortar of individual school buildings to the academic achievements and programs that help every student become productive.

This annual profile of our district has been produced every year since 1986 and was expanded in 1996 to meet state public reporting requirements for all school districts in Missouri at that time. The report includes student enrollment numbers, attendance figures, and high school dropout rates. Also included are data about the amount of state and federal aid received by our district and the number of students who qualified for free and reduced lunches. In addition, tax information and statistics about teaching and administrative staff, average salaries earned, and percent with advanced degrees are also provided for individual school buildings within the district.

*Four-Year Graduation Rate: Percentage of freshmen students who graduate in four years with a regular high school diploma. From the beginning of ninth grade, students who are entering that grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the ninth grade and the next three years, and subtracting any students who transfer out.

MISSOURI SCHOOL IMPROVEMENT PLAN (MSIP) 4th CYCLE REVIEW 2010-2011 SCHOOL YEAR

The Missouri Department of Elementary and Secondary (DESE) completed its Missouri School Improvement Program (MSIP) 4th Cycle review of Springfield Public Schools (SPS) during the 2010-2011 school year. As a result of high performance on DESE's Annual Performance Report (APR), the district received a full MSIP waiver, which allowed the district to receive a limited/mini review for the 4th Cycle. The waiver rule establishes the criteria and procedure for annually identifying school districts and/or school buildings eligible for waivers in compliance with applicable state law and regulations.

The Springfield Public School District's 2010-2011 MSIP Waiver Review visit was conducted on March 3, 2011 by Dr. Dennis Cooper, DESE area state supervisor. The waiver review process involved the district demonstrating its compliance to the statutory requirements on the *Items Not Waived Checklist*. Prior to the official March 3rd visit, Dr. Cooper, along with the SPS executive directors for elementary, middle, and high schools, visited all district schools. The site visits included a conversation with the building principal as well as a tour of classrooms. Additionally, the district surveyed parents, students, faculty/staff, and members of the Board of Education using the MSIP 4th Cycle Advance Questionnaire. As a result of the visit, the district was fully accredited.

SPS also received the prestigious **Distinction in Performance Award** from DESE in 2011.

Springfield met 13 of 14 performance standards on the 2011 Annual Performance Report. The standards include student performance benchmarks which include MAP and ACT scores, attendance rates and graduation rates. The district received an additional point for "Bonus MAP Achievement," which is awarded based on the number of students demonstrating improvement on the MAP Test.

SPRINGFIELD PUBLIC SCHOOLS ACCOUNTABILITY PROCESS

Educational reform efforts over the past decade have highlighted the need for public education to produce and showcase quantifiable results on tests and other measures of achievement. Research literature indicates that educational performance is heightened when individuals understand what is to be measured and why. Such a process is commonly referred to as “accountability.” An accountability process that measures progress is a good thing, but it cannot be an end unto itself—it must result in improvements. Research indicates customers of educational systems are interested in how students and schools are performing and improving and finding out what promotes student learning.

The accountability goal of the Springfield Public School District is to systematically set goals, define strategies to reach those goals, and monitor progress in achieving goals. The commitment of Springfield Public Schools to continuous improvement is reflected in the accountability process. A comprehensive accountability process provides continuous feedback to help school leaders systematically investigate which elements help school professionals and students perform more effectively.

The school district has three goals:

1. Improve student achievement: All students will demonstrate proficiency or higher in math, communication arts, and science.
2. Improve graduation rate: Students will persist in their effort to complete an educational program.
3. Ensure effective and efficient use of resources: High-quality, fiscally responsible services will be provided.

The district has also identified performance indicators critical to meeting district goals. These indicators help the district know what must be done to be considered successful by the public it serves. To accomplish this end, performance measurements have been established to ensure expectations are met. The performance measurements ensure the district commitment to continuous improvement.

SPRINGFIELD PUBLIC SCHOOL DISTRICT FINANCIAL OVERVIEW 2010-2011

Average per pupil expenditure

Average per pupil expenditure for the district as a whole is calculated by taking the current expenditure (as defined by Section 163.011 RSMo), divided by the average daily attendance (including summer school) of resident students:

$\$186,095,672.10 \div 22,246.13 = \$ 8,635.31$ average pupil expenditure (per Financial Services)

Springfield Public School District September Enrollments

EARLY CHILDHOOD SPECIAL EDUCATION EDUCATIONAL ENVIRONMENTS

The information below represents the total number of children in early childhood education who received special education services during the 2010-2011 school year. In December of 2006 the Office of Special Education Programs (OSEP) made changes to data collection requirements for children with disabilities in Early Childhood Special Education (ECSE). The ECSE program now reports the “total educational environment” for each identified child in the program. Following is the listing of educational environments and codes which are used in state reporting. (These educational environments do not replace the placement decisions that are made by the IEP team and documented on the IEP).

Total number of students served in the ECSE program during the 2010-2011 school year: 498

Students	Code	Educational Environment	Description
70	00A4	Regular Early Childhood (EC) Program	In EC program 10+ hours and received majority of SPED services in regular program.
113	00A5	Regular Early Childhood Program	In EC program 10+ hours and received majority of SPED services in another location.
4	00A6	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in regular program.
9	00A7	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in another location.
214	00B1	Separate class	Children with disabilities who attend a special education program in a class with less than 50% nondisabled children. (Do not include children who also attend a regular early childhood program.)
5	00B2	Separate School	Children with disabilities who receive special education and related services in public or private day schools designed specifically for children with disabilities. (Do not include children who also attend a regular early childhood program.)
0	00B3	Residential Facility	Children with disabilities who receive special education and related services in publicly or privately operated residential schools or residential medical facilities on an inpatient basis. (Do not include children who also attend a regular early childhood program.)
6	00B4	Home	Children with disabilities who receive SPED and related services in the principal residence of the child's family or caregivers, and who did not attend an early childhood program or a SPED program provided in a separate class, school, or residential facility. Includes children who received special education both at home and in a service provider location. The term caregiver includes babysitters.
77	00B5	Service Provider Location	Children with disabilities who receive all of their SPED and related services from a service provider, and who did not attend an early childhood program or a special education program provided in a separate class, school, or residential facility. Does not include children who also receive special education at home. Children who receive special education both in a service provider location and at home are reported in the “Home” category.
