

# ANNUAL REPORT 2012 – 2013

## **“HELPING TODAY’S KIDS FILL TOMORROW’S PROMISE”**

A special thank you to the Springfield community for their support of their children's education by approving the bond and levy initiative last April. This initiative supports the teachers' work in the classroom, an expansion of technology throughout the system and an improvement in facilities, allowing each teacher to make learning personal.

The most exciting part of our work is the work our teachers do to respond to the needs of every child. Our teachers are talented, our parents are supportive, and our students value their education and take responsibility for their learning. The district is on a journey of continuous improvement, working to be both efficient and effective in every classroom. Our goal is to prepare every child to be able to compete in our global society. This means that every student must graduate from high school both college and career ready.

The following pages of this Annual Report contain essential information to keep you informed and to guide us as we strive to improve student achievement and enhance our reputation as a regional, state and national leader in providing quality education.

## ***Our Mission***

Springfield Public School District exists for the academic excellence of all students.

## ***Our Vision***

Springfield Public School District shall be a national leader in academic and student development. In addition to the mastery of basic skills, students shall be engaged in challenging academic programs designed to allow students to reach their highest potential.

## ***About This Report***

The Springfield Public School District is fully committed to open, two-way communication with staff, parents of our students, and all citizens who are concerned about education. Our continuing commitment to meet that goal is the reason for this, and previous annual reports.

In this report, you will find information about many aspects of school life, from the bricks and mortar of individual school buildings to the academic achievements and programs that help every student become productive.

This annual profile of our district has been produced every year since 1986 and was expanded in 1996 to meet state public reporting requirements for all school districts in Missouri at that time. The report includes student enrollment numbers, attendance figures, and high school dropout rates. Also included are data about the amount of state and federal aid received by our district and the number of students who qualified for free and reduced lunches. In addition, tax information and statistics about teaching and administrative staff, average salaries earned, and percent with advanced degrees are also provided for individual school buildings within the district.

\*Four-Year Graduation Rate: Percentage of freshmen students who graduate in four years with a regular high school diploma. From the beginning of ninth grade, students who are entering that grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the ninth grade and the next three years, and subtracting any students who transfer out.

## **Missouri School Improvement Program (MSIP) 5**

[View 2012-2013 MSIP5 results for Springfield Public Schools](#)

Missouri first established standards for classifying and accrediting public school districts in 1950, but the process took on greater significance when the State Board of Education adopted new classification standards in 1990 and implemented the Missouri School Improvement Program (MSIP). Since that time, Missouri has moved through four phases of MSIP and is in the process of adopting standards for the fifth iteration. DESE has been working on revisions for MSIP5 for a number of years; however, recently the work has been shaped and influenced by reforms happening across the country, including common core, state standards, next generation assessments, and Race to the Top initiatives at the federal level.

Additionally, the Missouri Department of Elementary and Secondary Education's "10 by 20" plan—which aims to move Missouri into the top 10 states in all areas ranked by the U.S. Department of Education in the "State of States in Education" report by the year 2020—shares a natural relationship with MSIP5. Even with recent reforms, the overarching categories of accountability are set to remain the same. MSIP5 consists of five key standards:

**Assessment**

**Sub-group Achievement**

**College and Career Readiness**

**Attendance Rate**

**Graduation Rate**

Major changes between 4<sup>th</sup> Cycle MSIP and MSIP5 fall within the standards of assessment and college and career readiness. Additional EOC assessments and an end of high school assessment will be phased in over the next few years. Four end-of-course (EOC) high school assessments were required for graduates in 2013. College and career readiness will be assessed based on the percent of students meeting the state standards for results on college/career indicators (e.g., ACT, SAT, ASVAB, and Compass scores) student participation and performance in rigorous high school course work, and appropriate college or career placement within six months from their graduation date.

Click [here](#) (or the link at the top of this page) to view 2012-2013 MSIP5 results for Springfield Public Schools, made available by the Missouri Department of Elementary and Secondary Education.

Note: Two assessment systems have been established nationwide to implement next generation assessment, PARCC and Smarter Balanced. Missouri is one of the states on track to implement Smarter Balanced assessments by the 2014-2015 school year.

## **SPRINGFIELD PUBLIC SCHOOLS ACCOUNTABILITY PROCESS**

Educational reform efforts over the past decade have highlighted the need for public education to produce and showcase quantifiable results on tests and other measures of achievement. Research literature indicates that educational performance is heightened when individuals understand what is to be measured and why. Such a process is commonly referred to as “accountability.” An accountability process that measures progress is a good thing, but it cannot be an end unto itself—it must result in improvements. Research indicates customers of educational systems are interested in how students and schools are performing and improving and finding out what promotes student learning.

The accountability goal of the Springfield Public School District is to systematically set goals, define strategies to reach those goals, and monitor progress in achieving goals. The commitment of Springfield Public Schools to continuous improvement is reflected in the accountability process.

A comprehensive accountability process provides continuous feedback to help school leaders systematically investigate which elements help school professionals and students perform more effectively.

The school district has three goals:

1. Improve student achievement: All students will demonstrate proficiency or higher in math, communication arts, and science.
2. Improve graduation rate: Students will persist in their effort to complete an educational program.
3. Ensure effective and efficient use of resources: High-quality, fiscally responsible services will be provided.

The district has also identified performance indicators critical to meeting district goals. These indicators help the district know what must be done to be considered successful by the public it serves. To accomplish this end, performance measurements have been established to ensure expectations are met. The performance measurements ensure the district commitment to continuous improvement.

## SPRINGFIELD PUBLIC SCHOOL DISTRICT FINANCIAL OVERVIEW 2012-2013

### Average per pupil expenditure

Average per pupil expenditure for the district as a whole is calculated by taking the current expenditure (as defined by Section 163.011 RSMo), divided by the average daily attendance (including summer school) of resident students:

$\$198,531,905 \div 23,000.38 = \$ 8,631.68$  average pupil expenditure (per Financial Services)

## Springfield Public School District Enrollment History

## EARLY CHILDHOOD SPECIAL EDUCATION EDUCATIONAL ENVIRONMENTS

The information below represents the total number of children in early childhood education who received special education services during the 2012-2013 school year. In December of 2006 the Office of Special Education Programs (OSEP) made changes to data collection requirements for children with disabilities in Early Childhood Special Education (ECSE). The ECSE program now reports the "total educational environment" for each identified child in the program. Following is the listing of educational environments and codes which are used in state reporting. (These educational environments do not replace the placement decisions that are made by the IEP team and documented on the IEP).

*Total number of students served in the ECSE program during the 2012-2013 school year: 556*

<b>Students</b>	<b>Code</b>	<b>Educational Environment</b>	<b>Description</b>
<b>101</b>	00A4	Regular Early Childhood (EC) Program	In EC program 10+ hours and received majority of SPED services in regular program.
<b>86</b>	00A5	Regular Early Childhood Program	In EC program 10+ hours and received majority of SPED services in another location.
<b>5</b>	00A6	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in regular program.
<b>15</b>	00A7	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in another location.
<b>242</b>	00B1	Separate class	Children with disabilities who attend a special education program in a class with less than 50% nondisabled children. (Do not include children who also attend a regular early childhood program.)
<b>1</b>	00B2	Separate School	Children with disabilities who receive special education and related services in public or private day schools designed specifically for children with disabilities. (Do not include children who also attend a regular early childhood program.)
<b>0</b>	00B3	Residential Facility	Children with disabilities who receive special education and related services in publicly or privately operated residential schools or residential medical facilities on an inpatient basis. (Do not include children who also attend a regular early childhood program.)
<b>10</b>	00B4	Home	Children with disabilities who receive SPED and related services in the principal residence of the child's family or caregivers, and who did not attend an early childhood program or a SPED program provided in a separate class, school, or residential facility. Includes children who received special education both at home and in a service provider location. The term caregiver includes babysitters.
<b>96</b>	00B5	Service Provider Location	Children with disabilities who receive all of their SPED and related services from a service provider, and who did not attend an early childhood program or a special education program provided in a separate class, school, or residential facility. Does not include children who also receive special education at home. Children who receive special education both in a service provider location and at home are reported in the "Home" category.
