# **Springfield Public Schools Annual Report 2021-2022**

## ***About the Report***

The Springfield Public School District is fully committed to open, two-way communication with staff, parents of our students, and all citizens who are concerned about education. Our continued commitment to meeting this goal is the reason for the annual report.

The district annual report has been produced every year since 1986. It was expanded in 1996 to meet state public reporting requirements for all school districts in Missouri at that time. The report includes student enrollment numbers, attendance figures, and high school dropout rates. Also included is data about the amount of state and federal aid received by our district and the number of students who qualified for free and reduced lunch. In addition, tax information and statistics about teaching and administrative staff, average salaries earned, and percentage of teachers with advanced degrees are also provided for individual school buildings within the district.

Four-Year Graduation Rate: Percentage of freshmen students who graduate in four years with a regular high school diploma. From the beginning of ninth grade, students who are entering ninth grade for the first time form a cohort. The cohort is subsequently "adjusted" by adding any students who transfer into the cohort at any point before graduation and subtracting any students who transfer out.

Five-Year Graduation Rate: The five-year graduation rate is calculated the same as the four-year with the exception that it includes both four and five-year graduates in the fifth-year cohort.

## MISSOURI ASSESSMENT PROGRAM (MAP)

The Missouri Department of Elementary and Secondary Education (DESE) requires all Missouri public school districts to administer Missouri Assessment Program (MAP) assessments in the spring. Under the Missouri Assessment Program, End-of-Course (EOC) assessments are also administered at the end of appropriate secondary courses for accountability purposes. State assessments are administered in the following grade levels and End-of-Course areas:

STATE-REQUIRED MAP TESTING			
COMMUNICATION ARTS	MATHEMATICS	SCIENCE	SOCIAL STUDIES
Grade 3	Grade 3	Grade 5	American Gov. (GV)
Grade 4	Grade 4	Grade 8	
Grade 5	Grade 5	Biology 1 (B1)	
Grade 6	Grade 6		
Grade 7	Grade 7		
Grade 8	Grade 8		
English 2 (E2)	Algebra 1 (A1)		
	Algebra 2 (A2)		
	Geometry (GE)

Enrollment Full Time Equivalent (FTE) – Resident students in grades K-12 counted the last Wednesday in January who are enrolled on count day and in attendance at least 1 of the 10 previous school days. The average scheduled hours per week divided by the total possible hours a student could attend in a week.

# **MISSOURI SCHOOL IMPROVEMENT PROGRAM (MSIP) 6**

**View 2021-2022 MSIP6 results for Springfield Public Schools. [Click Here](#)**

The sixth version of the Missouri School Improvement Program (MSIP 6), the state's accountability system for reviewing and accrediting public school districts, is focused on continuous improvement for all schools, the preparation of each student for life beyond high school, and promoting practices that lead to healthy school systems. MSIP 6 will take a closer look at what districts are doing to implement effective practices and sustain improvements, while increasing the focus on individual student growth.

The comprehensive MSIP accountability system was established in 1990 and has evolved with each version. After more than two years of discussion, work, and review by educators and practitioners around the state, the State Board of Education approved the MSIP 6 Standards and Indicators in February 2020. These Standards and Indicators are designed to establish a new method for the state to determine the extent to which students are meeting the Missouri Learning Standards and obtaining necessary skills and knowledge. During this two-year period, over 6,000 comments were received from stakeholders including teachers and administrators.

MSIP 6 is intended to distinguish the performance of schools and districts in valid, accurate, and meaningful ways so that districts can continue to improve and identify areas of excellence. To this end, the Missouri Department of Elementary and Secondary Education (DESE) will produce an Annual Performance Report (APR) for districts and schools across the state, which will be used to inform accreditation and classification decisions. Indicators evaluated on the MSIP 6 APR are divided into two sections: Performance metrics, which measure student outcomes, and Continuous Improvement metrics, which assess the quality of the work of the LEA toward improving the opportunities provided to all students.

As of the publication of this report, the 2022 APR and supporting data have not been made available to districts or the public.

# **CONTINUOUS IMPROVEMENT PLAN**

## **SPRINGFIELD PUBLIC SCHOOLS STRATEGIC PLAN**

Educational reform efforts over the past decade have highlighted the need for public education to produce and showcase quantifiable results on tests and other measures of achievement. Research literature indicates that educational performance is heightened when individuals understand what is to be measured and why. Such a process is commonly referred to as “accountability.” An accountability process that measures progress is a good tool, but it cannot be an end unto itself—it must result in improvements. Research indicates customers of educational systems are interested in how students and schools are performing and improving, and finding out what promotes student learning.

The accountability goal of the Springfield Public School District is to systematically set goals, define strategies to reach those goals, and monitor progress in achieving goals. The commitment of Springfield Public Schools to continuous improvement is reflected in the accountability process. A comprehensive accountability process provides continuous feedback to help school leaders systematically investigate which elements help school professionals and students perform more effectively.

The school district has four priority areas:

1. Success-Ready Students
2. Organizational Efficiency
3. Collaborative Culture
4. Quality Learning Environments

The district has also identified performance indicators critical to meeting district goals that are embedded within each of the aforementioned focus areas. These indicators help the district know what must be done to be considered successful by the public it serves. To accomplish this end, performance measurements have been established to ensure expectations are met and ensure the district’s commitment to continuous improvement.

## EARLY CHILDHOOD SPECIAL EDUCATION EDUCATIONAL ENVIRONMENT 2021-2022

In December 2006, the Office of Special Education Programs (OSEP) made changes to data collection requirements for children with disabilities in Early Childhood Special Education (ECSE). The ECSE program now reports the “total educational environment” for each identified child in the program. Following is the listing of educational environments which are used in state reporting. (These educational environments do not replace the placement decisions made by the IEP team and documented on the IEP).

<b>Students</b>	<b>Educational Environment</b>	<b>Description</b>
<b>12</b>	Regular Early Childhood (EC) Program	In EC program 10+ hours and received majority of SPED services in regular program.
<b>91</b>	Regular Early Childhood Program	In EC program 10+ hours and received majority of SPED services in another location.
<b>1</b>	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in regular program.
<b>1</b>	Regular Early Childhood Program	In EC program fewer than 10 hours and received majority of SPED services in another location.
<b>175</b>	Separate class	Children with disabilities who attend a special education program in a class with less than 50% nondisabled children. (Do not include children who also attend a regular early childhood program.)
