Explore your guaranteed retirement income percentage (GRIP)

Retirement Pathfinder illustrates how your GRIP impacts your retirement income security. If your GRIP is low, you may want to consider how challenges such as a market decline or living longer than expected could impact your long-term retirement income strategy. If your GRIP is high, you have the assurance of knowing that a greater portion of your total annual expenses in retirement may be covered with income that's guaranteed. Your financial advisor can help you analyze your needs.
