| Tickets for Lews Raffle | | | 25 |
| Gas For boaters | 4 times need boaters | 4 x 25 | 100 |
| Total Cost per fisherman | | | 205 |

Why we fundraiser and need Sponsors

The gas cost maybe given back to the team from some boaters. All other school make each student pay extra for this.

Outside of their dues. I place it into our dues so we have no surprises in any charge for our students.

My goal is through fundraising from myself and them, my student have zero cost out of pocket. We are a 52-53%

Free/Reduce lunch school. Which has a trickle down effect on my students on fishing team. Half could not fish without help.

But, I believe they should still earn this money. So, my student will earn it by doing extra activities outside of fishing.

Example, X-mas book reading at the hospital for young kids, through JP and Teen Anglers, and helping with food drives, and community service help that arises throughout the year. To learn to give back to others and the important of community.

We may have extra cost for equipment and gear later in year. I'm hoping to pay for 1/2 of one rod and reel (combo) for each student that has their dues paid by deadline. This is where my own fundraising will go to help our team with extra cost.

I will keep a running cost sheet for the year. We came in the positive for 2018 season. At anytime if someone with the team would like to see the cost sheet. It is posted in my room. And the money itself goes through our account with the school.
