

OUR MISSION

Raise student achievement by empowering students to be lifelong readers and learners, critical thinkers, and effective, ethical users and producers of information for a global society.

OUR VISION

1. Promotes a library flowing with collaboration, curiosity, innovation, critical inquiry, transliteracy, adaptability, and diversity.
2. Champions reading for information gathering and pleasure.
3. Collaborates with the educational community to support the curriculum.
4. Selects acquires and maintains quality resources in a variety of formats.
5. Teaches all members of the learning community to locate, organize, analyze, evaluate, synthesize, and ethically use information.
6. Supports professional learning for teachers by modeling and coaching information literacy skills and educational technology to support student learning.

Goals

To accomplish our vision, we will:

- Create a climate of welcoming service to all patrons.
- Develop library spaces and learning opportunities that are flexible and adaptable.
- Forge relationships with students, teachers, administrators, and other members of the educational community.
- Actively seek ongoing professional learning.
- Model and support best practices in both teaching and library administration.
- Consistently collaborate to review, refine, and share our work.
