

# IGNiTE\*

Inspire. Grow. Network. Integrate. Transform. Engage.

## Why IGNiTE?

---

Our world is changing at a faster pace than ever before. Our students are learning in an ever-changing world, learning to solve problems that do not yet exist.

IGNiTE is a teaching and learning initiative that will provide the resources and support necessary for all teachers and students in Springfield Public Schools to access and experience an engaging, relevant and personalized learning environment.

## What is IGNiTE?

---

### What you can expect:

Expect to hear your child talk about learning differently. Homework will look different. Projects will look different. Teaching and learning will shift from teacher-led, to student directed. This shift will progress at different rates in each classroom and for each student. Expect the classroom of the future to look different from the classrooms you experienced.

### School-to-Home Use:

Students will be allowed to take devices home. Devices that do travel home must return the next school day fully charged and ready to be used. If students do not wish to take devices home, there will be a place designated at school to charge devices.

### Ongoing Support:

Teachers will have access to a Learning Specialist who will serve as a mentor and support in lesson design, device use and student support. Students and teachers will also have access to specialized IT support throughout the initiative.
